

#115 CAULK GUN™

RCD Corporation's® #115 Caulk™ Gun comes equipped with a spout cutter in the handle and a seal puncture tool mounted at the end of the gun. These features make it easy to open and load our 11 ounce caulking cartridges. The rugged steel painted frame and chrome plated ratcheting mechanism provide a useful lifespan while the low cost of this tool allows you to leave it behind on a job without concern.

PRECAUTIONS

The #115 Caulk Gun™ is equipped with a seal puncture tool. Many caulk tubes have spout seals that prevent the sealant from curing inside the tube. This seal must be broken or removed prior to extruding to prevent damage to the caulk gun. In addition, spouts blocked with dried adhesive or sealant must be cleared prior to extruding. Spout blockage can lead to gun damage, tube splitting, and tube plunger failure. Proper care and use are the responsibility of the end user.

WARRANTY

RCD #115 Caulk Gun™ is warranted to do the work for which it is designed as set forth above. All other warranties, express or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose, are disclaimed. It is understood and agreed that seller's liability, whether in contract, tort, warranty, negligence, personal injury, wrongful death or otherwise, shall not exceed the return of the amount of the purchase price paid by the purchaser and under no circumstances shall seller be liable for special, indirect or consequential damages. The price paid for the product is consideration in limiting seller's liability.
