

What makes #9 Mastic® Green?

- It's a Building Component that reduces heating and cooling loads.
- It releases minimal pollutants. VOC content less than 10 grams/liter!
- Blocks introduction, development or spread of indoor contaminants.
- Contains recycled materials.

#9 Mastic® earns the following LEED Credits:

- EA Prerequisite 2 – Minimum Energy Performance
- EA Credit 1 – Optimize Energy Performance
- IEQ Credit 3 – Construction IAQ Management Plan
- IEQ Credit 4 – Low Emitting Materials

#9 Mastic® is classified under the following categories:

- Builder Categories: Mechanical Systems/HVAC: Duct Mastic
- Builder Categories: Caulks & Adhesives: Duct Mastic
- CSI Divisions: Mechanical: CSI number 15821: Duct Mastic
- Green Topics: Energy: Heating, Cooling & Ventilation: HVAC Distribution Systems
- Green Topics: IEQ: Indoor Pollution from Materials: Reduction of Indoor Pollutants
- Green Topics: IEQ: Ventilation & Air Distribution: Management of Pressure Relationships
